

# WRM960

Multi-currency Mix Value Bill Counter

## MULTIPLE MODES & OPTIONS AVAILABLE

## FUNCTIONS OF INNER SENSORS

The device is equipped with a multi-sensor counterfeit detection system, and its unique **single Contact Image Sensor (CIS)** design not only enables precise automatic denomination recognition, but also analyzes images of various security features on banknotes, detects suspicious notes, and supports multi-currency processing.

## MACHINE FEATURES

- **Physical Button + Touchscreen Dual-control Mode**

Delivers convenient, flexible operation to fit different user habits

- **Independent Indicator Flash Prompt**

Better HMI experience, alerts to pending abnormal banknotes

- **Automatic Currency Recognition**

Eliminates manual currency selection, highly efficient

- **Optional Built-in Printer**

Supports fast & convenient banknote-count data printing

## SPECIFICATIONS

|                       |                                                         |
|-----------------------|---------------------------------------------------------|
| Feed System           | Roller Friction                                         |
